

**THE
CONSTRUCTION
TECHNOLOGY
SHOW 2026**

19 20 AUGUST 2026
GRANDE HALL - NESCO MUMBAI

Organised by

Official Media Partner

“Policy is no longer a footnote in project delivery—
it is the foundation.”

India is already moving:

- CPWD’s BIM Guidelines (2019) mandate BIM for projects above ₹100 crore.
- NHAI and Metro Rail Corporations (Delhi, Mumbai, Pune) now embed BIM in tenders.
- Nagpur Metro used 5D BIM; Chennai Metro applied BIM for MEP systems.
- Meanwhile, MoRTH is pioneering Automated and Intelligent Machine-aided Construction (AIMC).

From GPS-enabled graders to 3D machine control systems, AIMC is backed by real-time site monitoring, digital twins, and precision mapping. Intelligent Compaction—soon mandatory—replaces outdated spot tests with continuous data, addressing workmanship issues that cause 79% of premature pavement failures.

“When policy embraces technology, delivery moves
from promises to precision.”

Event Highlights

- Platform for Exhibition on Construction & Building Technology in India
- A two-day exhibition dedicated to Con-Tech and Prop-Tech powering Infrastructure construction and Real Estate construction
- Exhibitors will present cutting-edge construction & building technology products and services
- Opportunities for partnerships through organized B2B & B2G meetings
- Interactive conference covering case studies, technologies for real estate, infrastructure, smart cities, urban planning, transportation various industry-related topics
- Release of an exclusive report on Construction & Building Technology
- Knowledge sharing with academia, and discussions with start-up founders on innovation
- Start-up Pavilion highlighting intelligent technologies and innovations

Key Focus Areas

- Modular Construction
- Digital Twin
- 3D Printing
- Building Information Modelling (BIM)
- Geo-Spatial Technologies
- Digital Transformation in Real Estate
- Smart Buildings Technology – IoT-enabled building management delivering real-time insights and automated efficiency
- Prefab and Pre-engineered Buildings
- Urban Planning & Smart Cities
- Start-up & Innovation
- Property Technology (PropTech)
- Energy Efficiency & Sustainability

Technological Highlights:

- **Geospatial Technology:** Unlocking new dimensions in construction planning and execution.
- **BIM & 3D Modelling:** Revolutionizing the design and visualization of projects.
- **3D Printing:** Pioneering new methods in building structures and components.
- **Robotics:** Enhancing precision, safety, and productivity on-site.
- **AI & ML:** Transforming data into actionable insights for better project outcomes.
- Start-ups disrupting traditional models and introducing fresh thinking.

Conference Features:

- **Keynote Speeches:** Hear from thought leaders about the transformative power of technology in construction.
- **Practical Workshops:** Dive into interactive sessions on applying these technologies in your projects.
- **Technology Expo:** Explore the display of latest construction technologies from leading innovators and vendors.
- **Panel Discussions:** Debate and discuss the future directions of construction technology with experts.

 **IMPACCT**

Exhibitor Profile

Construction Technology

- Building Insulation Technology
- BIM, Digital Twin
- Project Management Software & ERP Systems
- Parking Systems
- Cement and Cementitious Products
- Climate Control Products
- Concrete Bricks, Blocks, Pavers
- Drone Technologies & LiDAR Systems
- Decking Sheets
- Decorative Concrete
- Fiber Cement & Concrete Products
- GIS & GPS Technology for Geo Tagging
- Modern HVAC for Smart Buildings
- Scaffolding & Accessories
- Precast & Pre-stressed Concrete
- Precast, Prefabricated Structures & Assemblies
- Pre-engineered Buildings
- Roofing, Cladding, and Facades
- Stamping Texture Mats & Surface Preparation
- Hardware, Fixtures, and Fittings Products
- UPVC & PVC Products
- Waterproofing and Damp Proofing Materials
- Wall Care Treatments

- Plumbing Equipment & Accessories
- Laminates, Plywood, Wood, Timber & Boards
- Doors, Windows & Facades
- Glass and Glazing
- Pollution Control Technology & Equipment
- Research & Technology Transfer
- Water Purification Systems
- Water & Wastewater Treatment Systems & Solutions

Building Technology

- AR/VR & 3D Technologies
- Fire Safety & Security Systems
- Smart Surveillance Solutions
- Building Management Systems (BMS)
- Smart Energy Management
- Lighting Management Solutions
- Indoor Air Quality Solutions
- Green Building Solutions
- Connected Building Solutions
- Smart Controls System Design
- Energy Storage Solutions
- Building Automation
- IoT Products & Solutions
- Parking & Traffic Management Solutions
- Smart Home Devices
- Mobility & Smart Infrastructure
- Smart Meters & Sensors
- Smart Wires & Cables

Visitor Profile

- Real Estate Developers
- Residential Property Builders
- Government Authorities: BMC, MMRDA, PWD
- Channel Partners
- Commercial Property Developers
- Leasing and Facility Management Firms
- Resorts, Hotels & Club Houses
- Facility Management Companies
- Realty Heads of IT Companies
- Data Centre Operators and Developers
- Theme Park Operators
- Architects & Consultants
- Surveyors
- Contractors
- Government Authorities & Agencies
- Hardware Dealers & Distributors
- Real Estate Agents
- Technology Enthusiasts & Early Adopters
- Civil Engineers
- Interior Designers & Decorators
- Commercial & Residential Building Owners
- Housing Development Corporations
- Smart City Mission Representatives
- Environmental & Sustainability Experts
- Property Investors
- Facility Managers
